1. IMPORTANT EVENTS WHICH TOOK PLACE IN THE FIRST 6 MONTHS AS WELL AS THE MAIN RISKS AND UNCERTAINTIES FOR THE FOLLOWING 6 MONTHS OF THE FISCAL YEAR 2022. COVID-19 AND RUSSIAN-UKRAINIAN CONFLICT IMPLICATIONS ON THE QUARTERLY FINANCIAL RESULTS. TRANSACTIONS WITH AFFILIATED PARTIES.

The company Şantierul Naval Orşova carried out its production activity from the main head-office AND FROM THE Agigea Branch, during semester I of 2022, without interruption and in compliance with the provisions and scope settled through the income and expense budget corresponding to this period.

According to the BVC provisions, during this semester, the foreign partners had been delivered and completed 2 ships, each of 110, gas-tank type.

The turnover showed slight increase from the provisions in the BVC, namely 12,26%, yet it showed a decrease by 38,77% in comparison to the corresponding period from the last year (we mention that during the Ist semester of 2021, the last coastal ship had been values out of a total of two ships which made the litigation with the company Veka).

Just like in the previous years, the income was realized mainly based on the production of ships in Orsova (80,11%) from the rendering of services (repair works) increasing and preserving a share of 16,82% and were mostly realized at Agigea Branch. The barges from the patrimony of Agigea Branch and which, during the previous periods, have represented the main source of income for this branch, were not rented during the first semester from 2022, the Covid-19 pandemic severely influencing this market sector.

The value – in absolute numbers – of the 2 ships delivered abroad was 3.870.986 Euro (during the period corresponding to 2021, a number of 4 river ships were delivered and they amounted to 7.694.700 Euro, built at the main site).

With regards to the activity of the Agigea Branch, the income realized from the construction of ships and from services rendered, did not cover the costs from the operating activity, at the end of the reporting period, the result of the activity being negative.

Subsequently, per total of company/activity, in comparison to the provisions from the BVC, neither the profit from operation nor the gross income were realized.

According to the cost centers we may find that:

Şantierul Naval Orşova S.A.

Separate financial statements in accordance with IFRS at 30.06.2022

- the main office recorded on the 30.06.2022 a gross loss of 1.958.853 lei while during the period corresponding to the previous year it was recorded a gross profit of 1.105.977 lei;
- on 30.06.2022 the branch in Agigea realized a loss of 506.226 lei, while the loss registered for the period corresponding to the previous year was 942.296 lei.

Apart from the above descriptions, there were existing factors which had a negative influence on our activities, out of which the following are to be mentioned:

- Price increase for the raw materials, power supply and technical gases;
- External factors with geopolitical implications, namely the armed conflict from Ukraine which caused the loss of certain suppliers of raw materials;
- The lack of qualified staff; although the company succeeded in gaining qualified workload in the field of ship constructions by offering proper wages packages, still, at the level of the production sections, the lack of experienced staff is felt strongly which represented and represents an inconvenience during the progress of the company's activity. This deficit of workforce is also subsequent to the fact that through the legislative modifications from the field of pensions, privileged conditions of retirement were created for certain categories of employees with seniority in the work-field. Moreover, the company deals with the ageing of the manpower, approximately 52% out of the total of employees is aged over 50. There is still an undergoing concern within the human resources' department for overcoming this situation. Even in these conditions, a high-quality level was ensured, according to the requirements from the external partners.
- The carrying out of the activity at the main head-office in open spaces (outside) during most of the year and subsequently, the dependence to the unfavorable weather conditions influenced extensively the work productivity.
- The internal measures, yet especially those external concerning the pandemic of COVID-19 represented an obstacle in what the progress of the collaboration relationships of the branch in Agigea with the partners from Turkey concerning the rental of MIDIA type ships which highly influenced also the result of the branch's activity, namely the recording of loss from the operating activity.
- The geopolitical context created by the existing conflict between Russia and Ukraine did not have a significant negative impact on the interim individual financial situations simplified on 30th of June 2022.
- Considering the existing circumstances regarding the COVID 19 pandemic and the armed conflict in Ukraine, according to the information available, our company considers that there are no significant uncertainties, according to point 25 from IAS 1, for the continuation of the activity

Şantierul Naval Orşova S.A.**Separate financial statements in accordance with IFRS at 30.06.2022**

and that there are no clues which might lead to a depreciation of the withheld assets, in compliance with IAS 36.

During the period analyzed there were no transactions with the affiliated parties.

II. DETAILED INFORMATION CONCERNING:**1. THE ECONOMICAL AND FINANCIAL SITUATION****a) Balance sheet elements at 30.06.2022**

The assets, capitals and debts at 30.06.2022, in comparison to the same period of the previous year, are thus:

	No. row	Sold at		INCREASE/DECREASE VARIATION SEM. I 2022/ SEM. I 2021 (%)

Public assets (ct.1026)		32			
CAPITALS – TOTAL (row.30+31)		33	86.339.336	85.778.484	0,65

Out of the above stipulated data, the following conclusions can be made:

- The fixed assets record totally a 7,49% increase, due to the reevaluation of assets from the constructions and ships' categories, operation registered at the end of the year 2021, yet also due to the investments made by the company during this period. We stipulate that at the end of 2021, subsequently to the reevaluation of the IFRS 16 requirements, the company situated the rental contract with the National Company the Administration of the Sea Harbor in Constanta,

concluded in the last part of 2019, under this standard. Thus, the assets indicators and elements, the debts and capitals for the year 2021, were re-calculated accordingly.

- The current assets have increased, totally, by 35,81%.

In structure, we have noticed a significant increase, especially due to the stocks (they have recorded increase by 166,01% because of the increase in the raw materials stock, the company having to great extent availability to the raw and necessary materials for the completion of the newly designed constructions for this year, yet on the other hand, due to the production stock increase ongoing); The receivables record an increase by 34,44% from the period corresponding to the year 2021, because at the end of the reporting period, the company did not have cashed in the last delivered ship (collected during the month of July) and the last two installments, according to the contract concluded with the company Veka, from the value of the coastal ship; The money availabilities of the company have registered significant decrease, mainly because of the above stipulated;

- The advanced expenses have increased by 69,61% especially because of the expenses carried out by the branch on the barges' certification yet also subsequently to the increase of local fees and taxes;

- Debts which must be paid within a period of one year have known a 266,7% significant increase, mainly due to the increase of the commercial debts triggered by big acquisitions, yet without registration of any due date exceeding of payments. The debts which must be paid within a period exceeding one year have also registered increase by 29,33% and refer to the delayed tax, settled subsequently to the re-assessment of the tangible assets, namely the debts corresponding to the using rights of the rented assets in compliance with IFRS 16;

- In what the company as a total is concerned, the own capitals show a slight increase from the period corresponding to the year 2021. The structure has shown an increase (by 11,15%) of the reserves from reevaluation, as mentioned above, the company carrying out the reevaluation of two categories of assets at the end of the previous year, likewise an increase by 12,99% of the reported result representing the surplus realized from reserves after the reevaluation yet also a significant increase, by 655,83%, of the loss registered at the end of the reporting period;

Subsequently to the above stipulated, the total of the asset / liability at the end of the Ist semester of 2022 has registered an increase from the period corresponding to the previous year, namely from 98.819.010 lei on 30.06.2021 to 123.393.118 lei on 30.06.2022.

Other information concerning the assets, debts and own capitals can be found in the Notes to the financial situations concluded on 30.06.2022, attached to the present report.

b) Profit and loss account

The operational incomes for the first 6 months amounted 24.310.226 lei (on 30.06.2021 they were amounting 39.702.225 lei), having the following structure:

- Sales of goods (constructions and ship bodies)	19.145.545 lei
- Rendering of services	4.062.224 lei
- Income from rentals	186.841 lei
- Other operational incomes	915.616 lei

From the previous year there has been registered a decrease in the operational income by 38,77% while the corresponding expenses have registered a decrease by 32,75%. Thus, at the end of the reporting period, the company would register a loss from the operational activity.

The gross profit on 30.06.2022, amounting totally 2.465.079 lei, is thus presented in structure:

- 2.619.665 lei Loss from the operation activity
- 154.586 lei Profit from the fiscal activity

In comparison to the provisions from the BVC, it may be noticed that although the income from the operation activities were realized 112,26% the gross profit was not realized. The operational expenses have exceeded the budgeted level, a significant influence was represented by the price increase of raw materials, power supply and other expenses with service renderers from abroad. In terms of the activity allotted to the branch, the income realized from the ships' repair activity was not enough to cover all the operating costs, the failure to find partners for the operation of the barges and the missing income from their rental constituted the main factor of influence for the negative result recorded.

With regards to the financial activity of the company, the gross profit, unlike the previous period, was realized especially subsequently to the preoccupation of the company management to carry out hedging operations – in order to protect the exchange rate and to a lower extent subsequently to the positive influences registered by the evolution of the exchange rate, respectively.

Please see below, synthetically, the accomplishments on 30.06.2022, in comparison to 30.06.2021 and with the provisions from the income and expenses budget:

DESCRIPTION OF THE INDICATOR	REALIZED		PROVIDED IN THE B.V.C. SEM.I 2022	%	
	30.06.2022	30.06.2021		2022/2021	Realiz./BVC

Other information concerning the incomes and expenses can be found in the Notes to the fiscal situations concluded on 30.06.2022, attached to the present report.

c) Cash flow

During the Ist semester of 2022, the company had enough liquidities available, thus the contracting of bank credits was not necessary. The cash and cash equivalent on 30.06.2022 amounted 9.924.363 lei (on 30.06.2021: 23.164.109 lei)

For the guarantee of the advance payments cashed from clients, opening of credit letters for suppliers and performance bonds, on 30th of June 2022, the company had contracted through BRD, the following approved limits, those being at the same level with the one from the previous year:

- 1.500.000 Euro limit multi-options and multi-estimates at BRD-GSG,
- 2.069.000 USD limit for the coverage of the currency risk.
- Out of the multi-options and multi-estimates limit, at the end of semester I 2022, 2 guarantee letters had been issued in favor of the National Company for Administration of the Sea Harbors Constanta, amounting to 467.181 lei and one in favor of the company GEFO Gesellschaft fur Oelransporte MBH, amounting to 216.550 EUR.

- For the guarantee of these limits the company used the same types of securities, as during the past years, namely common securities stock: land mortgage, chattel mortgage on the debts, collateral deposit in Euro).

The company did not have any pending obligations at the end of the Ist semester of 2022, all the obligations had been paid up on due date, both to the state budget and to the budget of the social insurances, and also to the employees, third parties and other creditors.

The company did not contract credits for investments during this period.

2. ANALYSIS OF THE COMMERCIAL COMPANY'S ACTIVITY

As shown, during the period assessed, the company has completed and delivered, out of the activity from the main office in Orsova, to the external clients, a number of 2 ships, as shown, each of 110 m length, gas-tank type.

The 5 hydro-flap barges from the branch in Agigea which represented during the previous years the main income source at the level of this sub-unit have not been rented during the first semester of 2022..

An assessment of the structure of the income is shown in the Notes to the individual fiscal reports (Notes 5 and 6) which are integer part of this report.

Under the present highly difficult conditions, when the external contracts are obtained rather difficult, at the level of the management, solutions were found in order to ensure continuity of the activity for the following period of time, the ongoing orders ensuring the coverage of the production capacity from the main head-site in Orsova for the entire year 2022 and for the Ist semester from 2023. This number of orders ensures equitably, the uploading of the human resources the company has so far.

Even if the company has undergoing contracts for the vast majority of the following period, the river ships' market has known significant changes from the previous year. These changes refer both to the level of the request and also to the cost of contracting, both having known an obvious drop from the period before the pandemic with COVID 19, which was confirmed also by the severe decrease of the worldwide trade during this period. Likewise, the military conflict in Ukraine may have in the following period, a negative impact on the European and World economy.

From the point of view of the structure of request for the building of river ships, on the market segment on which the company operates, we cannot discuss about major changes, at present

especially the tank ships are under request for the transportation of chemical, petrol products, as well as other liquid goods.

The average number of employees on the 30th of June 2022 was 345 employees (on 30.06.2021 the number was 359).

2.1 Out of the factors of uncertainty for the following period, the next are listed:

- Volatility and progress of the exchange rate – LEI/EURO – the company’s results depend a lot on a possible fluctuation, unpredictable, of the parity between the two currencies;
- Recruitment of the qualified human resources, especially welders, fitters, industrial painters and constructors fitter, as well as the instability of the human resources;
- Evolution of the steel cost, and especially to the ships’ plate, as well as the manner in which this progress is according to the evolution of the cost to the river ships;
- The credit system practiced by the external funding banks and the specific regulations concerning the conditions the river ships must accomplish and the community supporting politics in this field;
- The lack of perspective concerning the rental of the barges within the branch patrimony.
- COVID-19 pandemic and the consequences of the military conflict in Ukraine which may cause disturbance in the supply chain yet also the price inflation triggering significant economic increase.

2.2 The Investment expenses during the first semester of this year were realized approximately 66,61% in comparison to the provisions from the BVC, yet also in comparison to the Ist semester from 2021. The total value of the expenses of this kind was amounting 732.721 lei from 1.100.000 lei which was budgeted and 2.286.549 lei realized during the Ist semester of 2021. These expenses were carried out 54,36% to the main head-office and 45,64% at Agigea Branch. At the headquarters in Orşova there have been purchased new installations and equipment. Concerning the modernization project of the launching track from Agigea, project started 5 years ago, its completion is estimated to the end of this year.

2.3 Events, transactions and economic changes which significantly affect the incomes from the main activity.

During the period analyzed, the company did not have any transactions or economical changes which might affect significantly the incomes from the main activity.

2.3.1. Aspects concerning the risks brought by the Coronavirus pandemic (Covid-19) and the armed conflict in Ukraine

Even from the beginning of the pandemic, with consideration also of the new versions of the virus, the company took up special safety measures for its employees and to restrict possible Covid-19 spread. Thus, prevention and protective measures have been implemented in all the working points where the employees had been carrying their activities. The Company implemented immediately and effectively all the measures imposed in order to protect its employees' health.

Although this situation affected the activity of the company, mainly with regards to the sector of barges' rental, in the context of the Coronavirus pandemic (Covid-19), the company's continuity of activity has been ensured.

With regards to the risk imposed by the conflict in Ukraine, we foresee that even though the company is under no direct exposure, we have lost one of the possible suppliers of raw material (ship plate).

The financial interim individual statuses on 30.06.2022 were not audited.

3. CHANGES WHICH AFFECT THE SHARE CAPITAL AND THE MANAGEMENT OF THE COMMERCIAL COMPANY NAVAL SHIPYARD IN ORSOVA

The share capital of the company Şantierul Naval Orşova SA (The naval shipyard in Orsova) registered at the Trade register's Office Mehedinti, did not show any modifications during the Ist semester of 2022, being equal to that from 31.12.2021, namely 28.557.297,5 lei. The share capital is split in 11.422.919 common shares, registered share of 2,5 RON each. An owned share entitled the named shareholder to a vote in the general meeting.

The registry of the shareholders is kept by the CENTRAL DEPOSITORY SA Bucharest. In what the structure of the shares at the end of the Ist semester 2022 is concerned, in comparison to 30.06.2021, it did not record any modifications, in what the significant shareholders are concerned, thus being:

Şantierul Naval Orşova S.A.

Separate financial statements in accordance with IFRS at 30.06.2022

S.I.F. Transilvania	5.711.432 shares	49,9998%	14.278.580 lei
S.I.F. Oltenia	3.200.337 shares	28,0168%	8.000.843 lei
S.I.F. Muntenia.....	1.504.600 shares	13,1718%	3.761.500 lei
Other shareholders	1.006.550 shares	8,8116%	2.516.375 lei
TOTAL	11.422.919 shares	100,0000 %	28.557.298 lei

The evolution of the cost of the company's shares and the transaction amount, at the Stock Exchange Bucharest, in the last 5 years, during July 2017-July 2022 is given in the graph below (on the upper side there is shown the evolution of the trading cost, and on the lower side, the amount of traded shares):

Out of this graphic it may be noticed that the cost of the SNO shares, has registered a maximal value of over 7 lei/share during the year 2021. At present, the trading value of one share is 4,60 lei/share yet the liquidity out of this period is still low. We stipulate that the significant increase registered during the month of June 2021 was subsequently to the proposal from the CA and of the AGOA Resolution concerning the distribution of the dividends for the year 2020.

Şantierul Naval Orşova S.A.

Separate financial statements in accordance with IFRS at 30.06.2022

During the Ist semester of 2022, no changes existed in the consistency of the Managing Board, thus having the following structure:

- MISTER ROSCA RADU-CLAUDIU, Romanian citizen, aged 49, Economist. On 30.06.2022 he did not own any shares of the company;
- MISTER ENESCU RADU-VALENTIN, Romanian citizen, aged 52, Engineer. On 30.06.2022 he did not own any shares of the company;
- MISTER SPERDEA MIRCEA-ION, Romanian citizen, aged 68, Engineer. On 30.06.2022 he owned a number of 12.000 shares of the company, meaning 0,11% from the company's social capital;
- MISTER ZOESCU MIHAI, Romanian citizen, aged 42, Economist. On 30.06.2022 he did not own any shares of the company;
- MISTER MIHAI CONSTANTIN-MARIAN, Romanian citizen, aged 55, Lawyer. On 30.06.2022 he did not own any shares of the company;

During the period 01.01-30.06.2022, the general ordinary meeting of the shareholders was organized on 14.04.2022. They included the main points in the agenda:

1. The selection of the meeting's committee secretariat consisting of three members, namely Miss Maria Carstoiu, Miss Carmen Inca and Mr. Horia Ciorecan, shareholders with their identification data available at the company's head-office, in charge with the checking of the shareholders' presence, the fulfillment of the forms requested by the law and the articles of incorporation for the establishment of the general meeting, the counting of the votes expressed during the meeting of the general shareholders and the realization of the meeting's report;
2. The presentation of the report with the results from the revaluation of the tangible assets from the group of ships' transport means. The approval of recording the differences from the revaluation in the accounting registers on 31.12.2021, amounting to 3.301.954,11 lei.

Şantierul Naval Orşova S.A.
Separate financial statements in accordance with IFRS at 30.06.2022

Reference **NOTES TO SEPARATE FINANCIAL STATEMENTS IN ACCORDANCE WITH IFRS**

IAS 1.10(e) **1. Reporting company**

IAS 1.138 (a),(b) Şantierul Naval Orşova S.A. is a company headquartered in Romania. The registered office address of the Company is: Tufari Street, no.4, Orşova, Mehedinţi county.

IAS 1.51(a)-(c) The separate financial statements in accordance with IFRS have been prepared for the year ended 31 March 2022. The Company's main activity is: **construction of ships and floating structures (NACE code: 3011)**.

IAS 1.112(a) **2. Basis of preparation**

a..... Statement of compliance

IAS 1.16 The Company has prepared Quarterly Individual Financial Statements for the financial year ended March 31, 2022 in accordance with International Financial Reporting Standards as adopted by European Union, applicable to companies whose securities are admitted to trading on a regulated market, according to the Order of the Minister of Finance no. 881/2012 regarding the application of International Financial Reporting Standards by companies whose securities are admitted to trading on a regulated market and the Order of the Minister of Finance no. 2844/2016 approving the Accounting Regulations in accordance with International Financial Reporting Standards applicable to companies whose securities are admitted to trading on a regulated market, including subsequent amendments and additions.

IAS.10.17 The financial statements have been authorized for issue by the Board of Directors on May 11th, 2022.

The financial statements have been prepared using the historical cost basis except the following significant items from the statement of financial position, for which the Company has used the fair value model:

IAS 1.117(a) Investment properties

- Buildings
- Naval means of transport.

a..... Functional currency and presentation currency

IAS1.51(d),(e) These financial statements are presented in RON, which is also the functional currency of the Company. All financial information presented in RON, rounded to 0 decimal places. All financial information presented in RON, without decimals rounded (rounding the RON fractions over 50 money, including the neglect of money fractions to 50). Where amounts are presented in other currency than RON, it will be specified accordingly.

Şantierul Naval Orşova S.A.
Separate financial statements in accordance with IFRS at 30.06.2022

Reference **NOTES TO SEPARATE FINANCIAL STATEMENTS IN ACCORDANCE WITH IFRS**

IAS 1.112(a) **2. Basis of preparation (continued)**

b..... Professional judgements and key assumptions

The preparation of financial statements in accordance with IFRS requires the use of management's professional judgment, estimates and assumptions which affects the application of accounting policies and the reported value of assets, liabilities, income and expenses. Actual results may differ from estimated values.

The estimates and assumptions are reviewed regularly. Revisions of estimates are recognized in the period in which the estimate was revised and in future periods affected by the change.

IAS 1.122,12 Information regarding professional judgments that are critical in applying accounting policies which can significantly affect the values presented in the financial statements are included in the following notes:

5,129,130

- Note 18 –Investment property ;
- Note 23 – Loans.

c. New International Financial Standards not applied by the Company

The entity does not apply some IFRS or new stipulations regarding IFRS issued, but not in effect at the date of the financial statements. The company cannot estimate the impact of applying these stipulations and intends to apply them when they come into force. Among the issued, but not adopted standards, the company will not face the situation to prospectively apply neither of them. These are:

- IFRS 17 "Insurance Contracts", issued on 18 May 2017, with effect from 1 January 2023.
- Amendments to IAS 1 "Presentation of financial statements" Classification of Liabilities as Current or Non-current and Classification of Liabilities as Current or Non-current with effect from 1 January 2023.
- Amendments to IAS 1 "Presentation of financial statements" with effect from 1 January 2023
- Amendments to IAS 8 "Accounting policies, changes in accounting estimates and correction of errors" with effect from 1 January 2023.
- Amendments to IAS 12 "Income tax" with effect from 1 January 2023
- Amendments to IFRS 17 "Insurance contracts" with effect from 1 January 2023

Reference NOTES TO SEPARATE FINANCIAL STATEMENTS IN ACCORDANCE WITH IFRS

IAS 1.112(a) 2. Basis of preparation (continued)

d..... Presentation of financial statements

IAS 8.28(f) The Company applies IAS 1 *Presentation of Financial Statements* (2007) revised, which has been enforced on 1 January 2009. As a result, the Company presents in the Statement of Changes in Equity all changes related to shareholders' equity, while changes in equity unrelated to shareholders are presented in the Statement of Comprehensive Income.

Comparative information has been presented so that they are in accordance with the revised standard. As the impact of change in accounting policy is reflected only on presentation aspects, there is no impact on earnings per share.

IAS 1 Presentation of Financial Statements is basis for the financial statements presentation to ensure comparability both with the entity's financial statements for previous periods and with the financial statements of other entities.

The Company has adopted a presentation based on liquidity in the Statement of Financial Position and a presentation of income and expenses according to their nature in the Statement of Comprehensive Income, considering that these methods of presentation provide more relevant information than other methods that have been permitted by IAS 1.

IAS 1.57 The aggregation method is optional depending on the manner in which the Company's management considers relevant information for the presentation of the financial position, respectively financial performance.

Separate financial statements are prepared using the historical cost principle, except for buildings, means of shipping and property investments reclassified in accordance with IAS 40 which are presented at their fair value.

For assets and liabilities that were presented at their fair value the company has applied IFRS 13.

Expenses representing inventories consumption, depreciation of fixed assets, interest expenses, employee expenses etc. and which according to the IFRS stipulations, are included in some assets value, are recognized during the period depending on their nature. Complementarily, the accounting records related to assets in progress, on recognize of the related income accounts.

In preparation of the annual accounting reports, as well as those submitted during the year to the territorial units of the Ministry of Public Finance, which are prepared in accordance with the format established by the Ministry of Public Finance, the Company which, according to IAS 1, has chosen to present the analysis of expenses using a classification based on their nature, does not present either the value of these expenses or the value of the corresponding revenues as it is stipulation by OMFP 2844 of December 12, 2016 for approving the Accounting Regulations compliant with International Financial Reporting Standards (paragraph 182).

IAS 27	Separate Financial Statements	IAS 27 outlines when an entity must consolidate another entity, how to account for a change in ownership, how to prepare separate financial statements, and related disclosures. The financial statements prepared by the company for year ended 31 December, 2014 are separate financial statements, therefore, consolidated financial statements are not applicable in this case. The Transilvanian Financial Investment Company, headquartered in Braşov, Nicolae Iorga Street, No. 2, holds, in present, 49,9998% of the share capital of SC Şantierul Naval Orşova SA, so, they have obligation to prepare the consolidated financial statements.

Şantierul Naval Orşova S.A.

Separate financial statements in accordance with IFRS at 30.06.2022

Reference **NOTES TO SEPARATE FINANCIAL STATEMENTS IN ACCORDANCE WITH IFRS**

IAS 1.112(a) **2. Basis of preparation (continued)**

IAS 28	Investments in associated entities	Defining the evaluation and information principles regarding investments in associates, except those held by: a) Venture capital organizations b) Mutual funds, unit trusts and similar entities, including insurance funds with an investment component which are considered to be at their fair value through profit or loss or classified as held for trading and accounted in accordance to IAS 39.
IAS 29	Financial Reporting in Hyperinflationary Economies	The financial statements of an entity whose functional currency is the currency of a hyperinflationary economy should be presented in the current unit of measure at the financial statement preparation date, meaning non-monetary elements should be restated using a general price index from the date of purchase or contribution. IAS 29 provides that an economy is considered to be hyperinflationary if, among other factors, the cumulative index of inflation exceeds 100% over a period of three years. Continuous decrease of inflation and other factors related to the characteristics of the economic environment in Romania indicates that the economy whose functional currency was adopted by the Company, ceased to be hyperinflationary, affecting periods beginning 1 January 2004. Thus, amounts expressed in the measuring unit, current at 31 December 2003 are treated as the basis for the carrying amounts in the financial statements of the Company.
IAS 31	Interests in Joint Ventures	Accounting principles and policies to joint venture operations performed assets or holdings in a joint venture.
IAS 32	Financial instruments: presentation	Rules of presentation (classification of debt equity, expenses or income/equity).
IAS 33	Earnings per Share	Principles of determination and representation of earnings per share.
IAS 36	Impairment of Assets	Key definitions (recoverable amount, fair value less costs of disposal, value in use, cash-generating units), the frequency of impairment tests, accounting for the impairments, and for goodwill impairment.

IAS 1.112(a) **2. Basis of preparation (continued)**

IAS 37	Provisions, Contingent Liabilities and Contingent Assets	Defining provisions and approach of estimating provisions, individual cases examined (including the problem of restructuring).
IAS 38	Intangible Assets	Definition and accounting treatments for intangible assets, recognition and measurement policies on the processing costs for research and development etc.
IAS 39	Financial Instruments: Recognition and Measurement	Recognition and measurement principles regarding financial assets and liabilities, the definition of derivatives, hedge accounting operations, the issue of fair value etc.
IAS 40	Investment Property	Establishing the evaluation method: fair value model or cost model, transfers between different categories of assets etc.
IFRS 1	First-time Adoption of International Financial Reporting Standards	The procedures for financial statements according to IAS / IFRS optional exemptions and mandatory exceptions to retrospective application of IAS / IFRS, supplemented by amendments applicable from 1 January 2013.
IFRS 5	Non-current Assets Held for Sale and Discontinued Operation	Defining an asset held for sale and discontinued operations, and the, evaluation of these elements.
IFRS 7	Financial Information: Disclosures	Financial information related to financial instruments are referring primarily to: (i) information about the significance of financial instruments; and (ii) information about the nature and extent of risks arising from financial instruments, supplemented by amendments applicable from 1 January 2013.
IFRS 9	Financial instruments	The Standard includes requirements for recognition and measurement, impairment, derecognition and general hedge accounting of financial instruments. The version of IFRS 9 issued in 2014 supersedes all previous versions and is mandatorily effective for periods beginning on or after 1 January 2018 with early adoption permitted.

IAS 1.112(a) **2. Basis of preparation (continued)**

IFRS 10	Consolidated Financial Statements	Establishing principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities.
IFRS 11	Joint Arrangements	Establishing principles for financial reporting for entities that hold interests in jointly controlled commitments..
IFRS 12	Disclosure of Interests in Other Entities	Requires an entity to disclose information that will enable users of its financial statements to evaluate: the nature and risks associated with interests held in other entities; and the effects of those interests on the financial position, financial performance and its cash flows.
IFRS 13	Fair value measurement	The definition of fair value, establishing, in a single IFRS, a framework for measuring fair value, requiring the presentation of information on fair value.
IFRS 15	Revenue from Contracts with Customers	IFRS 15 specifies how and when an IFRS reporter will recognise revenue as well as requiring such entities to provide users of financial statements with more informative, relevant disclosures. The standard provides a single, principles based five-step model to be applied to all contracts with customers. IFRS 15 was issued in May 2014 and applies to an annual reporting period beginning on or after 1 January 2018. On 12 April 2016, clarifying amendments were issued that have the same effective date as the standard itself.
IFRS 16	Leasing contract	Its objective is to standardize the way in which financial and operational leasing contracts are recognized in order to have a better comparability in the financial statements between the entities that use different types of contracts

IAS 1.112(a) **3. Significant accounting policies**

The accounting policies presented below have been applied consistently in all periods presented in these financial statements by the Company, except for matters described in note 2 (e) of changes in accounting policies.

IAS 1.41 Certain comparative amounts have been reclassified to conform with current year presentation.

a. Foreign currency

(i) Transactions in foreign currency

The Company's foreign currency transactions are registered at exchange rates communicated by the National Bank of Romania ("NBR") for the transaction date. Foreign currency balances are converted in RON at the exchange rates communicated by NBR for the balance sheet date. Gains and losses resulting from the settlement of transactions in a foreign currency and the conversion of monetary assets and liabilities denominated in foreign currencies are recognized in profit or loss in the financial result.

b. Financial instruments

(ii) Share capital

The share capital may be increased or reduced on the basis of decision of the extraordinary General Assembly of shareholders, under the conditions and in accordance with law No. 31/1990, company law, republished. Prior to any capital increase by subscription of new consideration, the company will proceed to update the value of tangible and intangible fixed assets owned. Ordinary shares are classified as equity.

c. Tangible Assets

IAS 16.73 (a) (i) Recognition and evaluation

Tangible assets are initially measured at cost, (those purchased from suppliers) or if the input value received as a contribution in kind to the establishment of share capital or increase of share capital.

For subsequent recognition of plant, naval means of transport and investment properties, the company has opted for the revaluation model (fair value model).

IAS 1.112(a) **3. Significant accounting policies (continued)**

117(a)

Some of the tangible non-current assets were revalued based on government decisions ("GD") no. 945/1990, no. 26/1992, no. 500/1994, no. 983/1998, no. 403/200 and no. 1553/2003 by indexing the historical cost with indices prescribed in the respective government decisions. Increases of the tangible non-current assets' value resulting from these revaluations were initially credited to revaluation reserves and thereafter, except for the reevaluation made under GD. 1553/2003, in equity, in accordance with the respective government decisions. GD 1553/2003 foresaw the need to adjust the index value by comparing the utility value and market value. At 31 December 2006, the Company proceeded to review the value of buildings and special constructions using the opinion of specialists employed in the Company.

On 31 December 2007, the Company has not proceeded to review the value of fixed assets at the Orşova headquarters, instead Agigea Branch conducted a revaluation of fixed assets from the structures and ships category, before the merger, for the old company: SC Servicii Construcții Maritime SA Agigea. During the years 2007, 2008 and 2009 were recorded entries in the technological equipment category and other intangible assets category which led to a presentation in the financial statements, of the assets from these categories both at historical cost indexed in accordance with government decisions ("GD"), which have been applied to date, as well as historical cost.

At 31 December 2009 the Company revalued the buildings and special constructions using the opinion of an independent external evaluator.

At 31 December 2010 and 31 December 2011 the Company has not made any revaluations of tangible assets held.

On 31 December 2012, the Company proceeded to the revaluation of naval buildings and vehicles, both at headquarters in the town of Orşova, as well as at Agigea branch using the opinion of an independent external evaluator.

On 31 December 2013, the Company revalued naval vehicles, both at headquarters in the town of Orşova, as well as at Agigea branch using the opinion of an independent external evaluator.

On 31 December 2014, the evaluated naval vehicles, using the opinion of an independent external evaluator.

On 31 December 2015, the Company proceeded to the revaluation of naval buildings and vehicles, both at headquarters in the town of Orşova, as well as at Agigea branch using the opinion of an independent external evaluator.

Şantierul Naval Orşova S.A.
Separate financial statements in accordance with IFRS at 30.06.2022

Reference **NOTES TO SEPARATE FINANCIAL STATEMENTS IN ACCORDANCE WITH IFRS**

IAS 1.112(a) **3. Significant accounting policies (continued)**
117(a)

On 31 December 2016, the Company proceeded to the revaluation of buildings and naval vehicles amounted to the nature of shipping assets located at Agigea branch using the opinion of an independent external evaluator.

On 31 December 2017, the company proceeded to the revaluation of tangible assets such as naval vehicles amounted to the nature of shipping assets located in the branch Agigea using the opinion of an independent external evaluator.

On December 31, 2018, the Company proceeded to reevaluate tangible assets such as shipbuilding buildings and means of transport both at the head office in Orşova and at Agigea branch using the opinion of an independent external evaluator.

On December 31, 2019, the Company proceeded to reevaluate tangible assets such as shipbuilding buildings and means of transport located in the branch Agigea using the opinion of an independent external evaluator.

On December 31, 2020, the Company proceeded to reevaluate tangible assets such as shipbuilding buildings and means of transport located at the branch Agigea using the opinion of an independent external evaluator.

On December 31, 2021, the Company proceeded to reevaluate tangible assets such as shipbuilding buildings and means of transport located at the branch Agigea using the opinion of an independent external evaluator.

Regarding the accounting treatment of revaluation differences, these were made in accordance with IAS 16 as follows:

If the carrying amount of an asset is increased as a result of a revaluation, the increase shall be recognized in other comprehensive income and accumulated in equity under the heading of revaluation surplus. However, the increase shall be recognized in profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognized in profit or loss.

If the carrying amount of an asset is impaired as a result of a revaluation, the decrease shall be recognized in profit or loss. However, the decrease shall be recognized in other comprehensive income to the extent that the revaluation surplus shows a credit balance for the asset. Reduction recognized in other comprehensive income reduces the amount accumulated in equity under the heading of revaluation surplus.

IAS 1.112(a) **3. Significant accounting policies (continued)**
117(a)

The Company has used the net value model. The amount of the revaluation surplus was credited to revaluation reserve balance for those non-current assets which fair value was higher than the net book value. For the non-current assets which fair value has been less than the carrying amount, firstly the revaluation surplus has been decreased and after that if necessary it has been reflected as an operating expense in the profit and loss statement.

Maintenance and repairs of tangible assets are recorded as an expense when incurred. Significant improvements of tangible non-current assets that increase the value or useful life or significantly increase the capacity to generate economic benefits are capitalized as asset.

Assets that have the nature of inventory objects, including tools are recorded as an expense when purchased and are not included in the account value of the tangible assets.

(ii) Reclassification to investment property

The transfer to or from investment properties shall be made if, and only if, there is a change in use.

(iii)..... Depreciation of tangible non-current assets

Depreciation is the equivalent to irreversible impairment of an asset, as a result of normal use, natural factors, technical progress or other causes. Fixed assets' depreciation shall be accounted as an expense (recognized in profit or loss).

The company uses straight-line depreciation method for all tangible assets owned, by dividing the book value equally, over its useful life. The depreciation method is applied consistently to all assets of the same type and with identical conditions of use. If tangible assets are placed in conservation, the company did not account the depreciation expense, instead at the end of the period, the company will record a corresponding expense adjustment for the impairment of the asset. The degree of impairment will be determined as much as possible by a certified evaluator. A significant change in the conditions of use of tangible assets or aging may justify a revision of the useful life. Also, if the tangible non-current assets are placed in conservation (their use is discontinued for a long period), the useful life can be revised.

The residual value and service life shall be reviewed at least at each financial year end.

Depreciation is calculated on the fair value, using the straight-line method over the estimated useful life of the assets as follows:

Şantierul Naval Orşova S.A.
Separate financial statements in accordance with IFRS at 30.06.2022

Reference **NOTES TO SEPARATE FINANCIAL STATEMENTS IN ACCORDANCE WITH IFRS**

IAS 1.112(a) **3. Significant accounting policies (continued)**
117(a)

<u>Asset</u>	<u>Years</u>
Constructions	5 - 45
Equipment	3 - 20
Other equipment and furniture	3 - 30

Lands are not a subject of depreciation, as they are deemed to have an indefinite life. The management continually evaluates the development plan. The effect of lifetime review, based on GD. 2139/2004, was reflected in the depreciation expense in the year 2005 and in future periods in the amount of depreciation expenses without any temporary differences.

(iv) Derecognition

The account value of a fixed asset shall be derecognised:

- when disposed, or
- when no future economic benefits are expected from its use or disposal.

The gain or loss arising from the derecognition of a fixed asset shall be included in profit or loss when the item is derecognised. Gains shall not be classified as revenue.

d. Intangible Assets

(1) *Cost*

(i) *Software*

Costs for the development or maintenance of computer software programs are recognized as an expense when they occur. Costs that are directly associated with identifiable and unique products, controlled by the Company and will probably generate economic benefits exceeding costs for a period longer than one year are recognized as intangible assets. Direct costs include the development team staff costs and an appropriate proportion of overhead expenses.

Expenditure which results in extending the useful life and increasing the benefits of software over the initial specifications are added to the original cost. These costs are capitalized as intangible assets if they are not part of tangible assets.

Reference **NOTES TO SEPARATE FINANCIAL STATEMENTS IN ACCORDANCE WITH IFRS**

IAS 1.112(a) **3. Significant accounting policies (continued)**

117(a)

(ii) *Other intangible assets*

All other intangible assets are recognized at cost.

Intangible assets are not revalued.

(2) Amortization

(i) *Software*

Software development costs capitalized and they are amortized using the straight-line method over a period between 3 and 5 years.

(ii) *Other intangible assets*

Patents, trademarks and other intangible assets are amortized using the straight-line method over their useful life. Software licenses are amortized over a period of 3 years.

e. Rights-of-use for leases assets

The company as a lessees

At the beginning of the contract the company assesses whether a contract is or contains a lease clause. The company recognizes a right to use the asset and a lease liability in relation to all leases in which he is a lessee/user, except for short-term contracts (defined as leasing with a lease term of 12 months or less) and rental of low value assets (such as licenses, oxygen tubes, mailbox, etc.). For these leases, the company recognizes the lease payments as operating expenses on a straight-line basis over the term of the lease.

Leasing liability

Leasing liability is initially measured at the present value of lease payments that are not paid on the start date, discounted at the default interest rate in the lease. If this rate cannot be easily identified, the company uses BNR's monetary policy interest rate.

The lease liability is initially measured at the present value of the lease payments that are not paid on the date of commencement of the contract, updated using the interest rate.

IAS 1.112(a) **3. Significant accounting policies (continued)**

117(a)

Leasing liability is presented as a separate line in the financial statement.

Leasing liabilities are subsequently updated by increasing the carrying amount to reflect the amount of the amount of the revalued lease debt and by reducing the carrying amount to reflect the lease payments made. The company revalues the lease debt (and makes an appropriate adjustment to the right to use the asset) when:

- The lease term has changed, in which case the lease debt is revalued by updating the lease payments.

- The lease is amended and the change in the lease is not accounted for as a separate lease, in which case the lease is revalued on the basis of the terms of the amended lease by updating the revised lease payments using an updated interest rate on the effective date of the change.

Rights-of-use assets

Rights-of-use include the initial valuation of the corresponding lease liability, lease payments made on or before the commencement date, minus the lease incentives received, and any initial direct costs. Subsequent they are measured based on cost minus accumulated amortization and impairment losses. Rights-of-use assets are amortized over the lease term of the underlying asset.

f. Investment property

An investment property is a real property (land or a building - or part of a building - or both) owned rather to earn rentals or for capital appreciation or both, rather than:

- (a) used for production or supply of goods or services or for administrative purposes; or
- (b) to be sold in the ordinary course of business.

For the evaluation after recognition, the company uses the fair value model, this accounting treatment has been applied to all investment properties.

A gain or loss arising from a change in fair value of investment property shall be recognized as an income or as an expense in the statement of comprehensive income for the period.

In determining the fair value of investment property, the company uses the services of certified values.

g. Inventories

Inventories are assets:

- Held for sale in the ordinary course of business;
- In process for sale in the ordinary course of business;
- Raw materials and consumables.

Reference **NOTES TO SEPARATE FINANCIAL STATEMENTS IN ACCORDANCE WITH IFRS**

IAS 1.112(a) **3. Significant accounting policies (continued)**

117(a)

Measurement of inventories

Inventories are required to be stated at the lower value between cost and net realizable value. Inventories should not be reflected in the statement of financial position an amount greater than the amount that can be obtained through their sale or use. In this case, the inventories value should be decreased to the net realizable value by reflecting a write-down.

Cost of inventories

The primary basis for accounting inventories is the cost .

The cost of inventories should comprise all costs of acquisition and processing and other costs incurred in bringing the inventories to the shape and place in which they are currently.

Price differences over the cost of acquisition or production should be disclosed separately in the accounts and are recognized in cost of the asset.

Regarding the method of valuation, the company used, until December 31, 2010, the weighted average cost method, but starting from January 1, 2011, the company is using the first-in - first out method.

The cost of finished goods and work in progress includes materials, labor and indirect production costs associated. Where necessary, adjustments are made for wasted or obsolete inventories. The net realizable value is calculated as the selling price less costs to complete and costs necessary to make the sale

h. Impairment

(i) Financial assets (including receivables)

A financial asset or group of financial assets is impaired if, and only if, there are any objective evidence of impairment arising as a result of one or more events that occurred after the initial recognition of the asset, and these events have an impact on future cash flows of the financial asset or group of financial assets that can be estimated reliably. On each financial year date, the company examines whether there is any objective evidence that the financial asset or a group of financial assets is impaired. The loss is given by the difference between the asset's book value and the present value of future cash flows using the effective interest rate of the financial asset at initial recognition.

If in a subsequent period, an event occurring after the recognition of the impairment will determine an increase of the asset's value, the impairment will be reversed.

Reference **NOTES TO SEPARATE FINANCIAL STATEMENTS IN ACCORDANCE WITH IFRS**

IAS 1.112(a) **3. Significant accounting policies (continued)**
117(a)

i. Employee benefits

The Company makes payments to pension funds, health funds, unemployment funds, allowances and vacations for all staff. These expenses are recognized in the statement of comprehensive income for the period covered. At retirement, the company granted, as a stimulant, between one and four salaries to every person who ceases contractual relationship with the company.

The Company does not operate any other pension plan or retirement benefits so it has no other obligations in respect of pensions.

During the year, according to the collective labor agreement, depending on the possibilities of the company, employees can receive awards, financial aid for deaths in the family, serious and incurable illness etc.

j. Provisions

Provisions are recognized when the Entity has a present legal or constructive obligation, arising from past events, the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits and when a reliable estimate can be made of its amount.

(1) Provisions for annual vacations and other similar staff rights.

Company debt regarding annual employee vacations is recognized in proportion to the duration of untaken vacation days by the end of the year. At the balance sheet date, a provision for the estimated obligation is recognized, provision which includes both the actual amount of untaken vacation days and related social contributions. Also, for the retirement of employees who are qualified for this matter, the company established a provision according to the collective agreement stipulations through the valid period.

(2) Provisions for litigation

For those pending lawsuits, in which the company is the defendant and courts have not issued a final and executory judgment, the company made provisions for the amounts estimated. The amounts paid to the company customers, for any damage caused to the ship during transport, and which have failed to be recovered from the insurance company which issued the insurance policy and for whom there is a pending lawsuit, are treated similarly.

Şantierul Naval Orşova S.A.
Separate financial statements in accordance with IFRS at 30.06.2022

Reference **NOTES TO SEPARATE FINANCIAL STATEMENTS IN ACCORDANCE WITH IFRS**

IAS 1.112(a) **3. Significant accounting policies (continued)**

117(a)

(3) Provisions for guarantees

For river vessels produced by the Company, it is stipulated in the export contracts that the seller is obliged to guarantee the proper execution, for a period of 6-9 months from date of sale (ownership transfer), depending on the complexity of the ships.

Provisions made for this purpose are based on calculation of the average share of total claims paid customer deliveries during the last period (previous year).

k. Revenue

Revenue refers to goods sold and services rendered.

Sales revenues include sales of ships and services provided (rentals and ship repairs) made in the ordinary course of business (excluding value added tax).

Revenue is recognized upon delivery of goods to the buyer or carrier, delivery against invoice, and for export products, after being charged and all the customs formalities are completed, or delivered to the place specified in the contract (port of destination), with the transfer of risks to the buyer.

Revenue is measured at the fair value of the counter performance received or to receive.

Interest incomes are recognized using the effective interest method in proportion to the relevant period of time, based on the principal and the effective rate until the maturity date or for a shorter period if this period is linked to the transaction costs, when it is established that the company will obtain such income.

IFRS 7.20,24 **l. Financial income and expenses**

Interest income is recognized as the income generates, on an accrual basis using the effective interest method in proportion to the relevant time, based on the principal and the effective rate over the period to maturity or a shorter period if this period is link to transaction costs, when it is established that the company will obtain such income.

Income from financial assets or dividends receivable from entities in which the Company is a shareholder, are recognized in the financial statements of the financial year in which they are approved by the General Meeting of each entity.

Şantierul Naval Orşova S.A.
Separate financial statements in accordance with IFRS at 30.06.2022

Reference **NOTES TO SEPARATE FINANCIAL STATEMENTS IN ACCORDANCE WITH IFRS**

IAS 1.112(a) **3. Significant accounting policies (continued)**
117(a)

m. Income tax

The Company records current income tax using the taxable income from tax reporting, determined by the relevant Romanian legislation.

Income tax obligation for the reporting period and prior periods is recognized to the extent that is not paid.

If the amounts paid on the current and prior periods exceed the amounts due for those periods, the excess is recognized as recoverable amount.

Recognition of deferred tax assets and liabilities

Deferred income tax is, using the balance sheet method, based on temporary differences arising between the tax bases of assets and their carrying amount. Deferred tax assets are recognized to the extent that there is the possibility of achieving future taxable profit from which the temporary differences can be recovered.

4. Determination of fair value

Certain accounting policies of the Company and disclosure requirements demand the determination of fair value for both financial and non-financial assets and liabilities. Fair values were determined for evaluation and / or disclosure purposes based on the methods described below. Where appropriate, additional information about the assumptions used in determining the fair value are presented in the notes that are specific to the asset or the liability.

In the assessment of tangible and intangible assets, fair value measurement is an option. Fair value assessment is made for categories of assets and is treated as a revaluation. The excess resulting from revaluation directly affects equity, unless previously it was recognized as a revaluation loss. Revaluation losses affect the statement of comprehensive income, unless there is an added value previously accounted directly in equity. There are differences between the two asset structures in terms of how to determine the fair value.

IAS 16 “Property, plant and equipment” asserts that: *“After recognition as an asset, an item of tangible assets whose fair value can be measured reliably shall be carried at a revalued amount, representing its fair value at the revaluation date minus any subsequent accumulated depreciation and any accumulated impairment losses. Revaluations shall be made with sufficient regularity to ensure that the carrying amount does not differ significantly from that which would be determined using fair value at the balance sheet date.”* [9]

IAS 38 “Intangible Assets” indicates: *“The purpose of revaluations under this standard, fair value shall be determined by reference to an active market”.*[10]

4. Determination of fair value (continued)

If IAS 16 “Property, plant and equipment” allows the determination of fair value through other methods if there isn't an active market, IAS 38 “Intangible Assets” narrow the assets that can be revalued, showing that only the assets for which an active market exists, can be revalued.

A special structure of non-current assets is the investment property. IAS 40 “Investment Property” offers two options for their evaluation: cost model or fair value model. As compared to IAS 16 “Property, plant and equipment”, where, if cost model is applicable, entities are only encouraged to disclose the fair value in the notes, IAS 40 “Investment Property” requires the estimation of fair value, for evaluation (fair value model) or to present in the notes (cost model).

For in assets held for continuing use, it can sometimes be difficult to estimate fair value minus costs of disposal. In the absence of a reliable basis for estimating the amount that an entity could obtain, from the sale of these assets in an arm's length transaction between knowledgeable, willing parties, IAS 36 “Impairment of Assets” indicates that the entity may use the asset's value as its recoverable amount (fair value is equal with the value in use).

As of January 1, 2013 requirements are applicable to the valuation of assets and liabilities at fair value under IFRS 13 “Fair Value Measurement”. IFRS 13 applies to assets and liabilities held by an entity for which, in accordance with other standards, it is required or permitted a fair value measurement or disclosure about fair value is required.

IFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The price used to assess the asset or liability at fair value is not adjusted by the amount of transaction costs because they are not a feature of the asset or liability, but a feature of the transaction.

Fair value assessment of an asset or liability considers the characteristics of the asset or liability which that market participants would consider in determining the price of the asset or liability at the measurement date.

Fair value measurement is performed on the assumption that an asset or liability is traded between market participants according to the normal conditions of sale of an asset or the transfer of a liability that characterizes the market at the measurement date. A normal transaction involves access to the market for a period that precedes evaluation enabling typical marketing activities and usual for those trading the respective assets or liabilities.

Şantierul Naval Orşova S.A.
Separate financial statements in accordance with IFRS at 30.06.2022

Reference *NOTES TO INDIVIDUAL FINANCIAL SITUATIONS IN ACCORDANCE WITH IFRS*

5. Incomes

		<u>30.06.2022</u>	<u>30.06.2021</u>
<i>IAS 18.35(b) (i)</i>	<i>Sales of goods</i>	19.145.545	37.607.312
<i>IAS 18.35(b) (ii)</i>	<i>Rendering of services</i>	4.752.934	1.900.607
	Total	<u>23.898.479</u>	<u>39.507.909</u>

Incomes for the first 6 months of 2022 are lower by 39.51% compared to those of the corresponding period of last year, mainly due to the decrease in revenues from the sale of ships built at the main office in Orsova. During this period, the Company has completed and handed over to external customers, in accordance with the production schedule, a number of 2 vessels (4 ships in the corresponding period of 2021).

The market for river/sea shipbuilding is still deficient, but the company has its production capacity covered by the end of the year.

Although they do not represent a significant percentage in the turnover, the provision of services registered an increase of 150.07%, and this increase compared to the previous year was made mainly on account of the ship repair activity at the Agigea branch. The main customer was Navrom Galaţi.

These presentations are made by the Company in accordance with IFRS 8.

6. Other incomes

	<u>30.06.2022</u>	<u>30.06.2021</u>
Income from rents (other than rent real estate investments)	155.331	130.096
Income from asset sales	-	-
Other operational incomes	256.416	64.220
Total	<u>411.747</u>	<u>194.316</u>

Between 01.01 - 30.06.2022 these revenues are at a higher level than in the corresponding period of the previous year (increase by 111.90%). The amounts realized during this period and registered in the position of income from rents are mainly related to the lease agreements for spaces in the patrimony of the Agigea branch. As for the amount recorded under the other operating income position, this is mainly due to additional revenues from the relationship with Veka.

The 5 barges in the branch's records were not rented in the first 6 months of this year.

7. Outgoings on stocks

	<u>30.06.2022</u>	<u>30.06.2021</u>
Expenses with raw materials	5.992.914	6.856.930
Expenses of consumable materials, from whom:	3.168.426	7.148.917
Expenses of auxiliary materials	2.915.968	6.274.273
Expenses of fuel	124.890	372.482
Expenses with spare parts	82.793	324.711
Expenses of other consumable materials	44.774	177.451
Expenses regarding materials of nature inventory items	153.482	245.391
Expenses of unstocked materials	83.269	92.750
Expenses regarding goods	150.210	13.091
Received discount	(188)	(101)
Total	<u>9.548.112</u>	<u>14.356.978</u>

In sem. I 2022, the significant share in the total expenditure on stocks is held by raw materials (naval sheet) and auxiliary materials (profiles, pipes). On the total, there is a decrease in expenses, by 33.50% compared to the previous year, this decrease being correlated with the fact that the revenues from the sale of ships also recorded a decrease of 49.09%.

Expenditure on the consumption of inventories which, according to the provisions of IFRS, are included in the value of some assets shall be recognised during the period according to their nature. Accordingly, the amount of assets in progress of execution shall be recorded in the accounts on behalf of the related revenue accounts. Please note that the Company, in accordance with IAS 1, has chosen to present its analysis of expenses using a classification based on its nature, and therefore does not disclose either the amount of such expenses or the amount of the corresponding revenue.

8. Utilities outgoings

	<u>30.06.2022</u>	<u>30.06.2021</u>
Expenses with energy	801.364	890.834
Expenses with water	15.781	25.292
Total	<u>817.145</u>	<u>916.126</u>

In the first half of 2022, utility expenses, in correlation with the production achieved, also experienced a decrease compared to the first semester of 2021 (by 10.80%), but we mention that the supply tariffs have seen a significant increase.

It should be noted that a factor influencing this increase is also the method of presenting expenditure using a classification based on its nature, according to IAS 1.

It should be noted that a factor influencing this increase is also the method of presenting expenditure using a classification based on its nature, according to IAS 1.

Expenses with compensations, fines and penalties	649	244.191	
Other operational expenses	196.945	30.983	
Total outgoings	<u>4.421.022</u>	<u>10.378.062</u>	<u>(280.470)</u>

During the period 01.01-30.06.2022, the level of expenses above recorded a decrease of 57.40% compared to the similar period of the previous year, the main factors of influence in this decrease being the volume of production sold, during this period being delivered 2 vessels (4 ships delivered in sem. I 2021

Regarding the rent expenses, we mention that, following the reanalysis at the end of 2021 of the lease contract for the land at the Agigea branch, owned by CNAPMC, and the reassessment of the IFRS 16 requirements, this expense was adjusted accordingly for the corresponding period of 2021.

Also in the case of these categories of expenditure, a factor influencing these increases is the method of presenting expenditure using a classification based on its nature.

We will explain below some of the positions that hold a significant share in the total expenses:

- There is a decrease in the expenses with maintenance and repairs, during the analyzed period the Company performing a lower volume of expenses of this nature.
- Expenditure on the transport of goods and persons, which are closely related to the volume of sales revenues, relates in particular to the transport of the 2 river vessels built at the main office, on the route: Orsova – Rotterdam. We mention that, in accordance with the contractual provisions, the transfer of the ownership right is made at the same time with the delivery of the ships at these points, throughout the transport period the ships being ensured by the Company, according to the contractual clauses.
- The volume of third-party benefits has decreased compared to the sem. I 2021. In the analyzed period the Company resorted to less to subcontractors or to the outsourcing of

Şantierul Naval Orşova S.A.

IAS 1.97 **11. Other outgoings (continued)**

ship paint works. As regards the auditors' fees, included in the total amount of this item, it is found that their level is close to that of the previous year. Specifically, they recorded the following values: 49.055 lei, including VAT. fees to statutory auditors (48,358 lei, including VAT, in the corresponding period of the previous year), and for internal audit services the amounts paid during 01.01-30.06.2022 were 10,584, including VAT (21,081 lei, including VAT, in the corresponding period of the previous year).

- As regards the item Other expenses, they relate in particular to the expenses occasioned by the conduct of the dispute with VEKA.

IAS 1.86 **12. Financial income and expenses**

Recognized in the profit or loss account:

		<u>30.06.2022</u>	<u>30.06.2021</u>	<u>Adjustment</u> <u>2021 +(-)</u>
<i>IFRS 7.20 (b)</i>	Interest income from bank deposits	6.662	18.358	
<i>IAS 21.52 (a)</i>	Incomes from exchange rates differences	187.281	615.901	
	Total financial incomes	193.943	634.259	
<i>IFRS 16.</i>	Interest expense on the leasing account	14.746	-	19.163
<i>IAS 21.52 (a)</i>	Expenses from exchange differences rates	80.727	127.418	
	Value adjustments regarding financial fixed assets	(56.116)		
	Total financial expenses	39.357	127.418	19.163
	Net financial result	<u>154.586</u>	<u>506.841</u>	(19.163)

In connection with the above amounts, the following clarifications are made:

- interest income is related to bank deposits and current account availabilities;
- due to the evolution of the exchange rate, the revenues from exchange rate differences were higher than the expenses from exchange rate differences, but they were at a lower level than those recorded in the similar period of 2021.
- Regarding the interest expenses, we mention that, following the reanalysis at the end of 2021 of the lease contract for the land at the Agigea branch, owned by CNAPMC, and the reassessment of the IFRS 16 requirements, this expense was adjusted accordingly for 2021.
- during the analyzed period of 2022, the company did not have contracted bank loans, so it did not register interest on this title.

IAS 16 **14. Tangible non-current asset (continued)**

On 30 June 2021, land has a book value of 1,201,941 RON and represents an area of 86,000 square meters, of which:

- 85,790 square meters at its headquarters in Orşova and
- 210 square meters at its Branch in Agigea, Constanta County.

On 31.12.2007, the Agigea Branch, named at that time Shipyard Services SA Agigea, carried out the land revaluation operation of 210 sqm. As a result, after the merger (in 2008) and until this date, the Company's lands are valued at fair value for the land in the Branch's patrimony and at historical cost for the lands from Orşova.

In the course of the year 2017 the company has put up for sale by tender two plots of land in the area Gratca, of 937 square meters and 3,988 square meters, in accordance with the management decision of 16 February 2017. Although these lands have not found yet their buyers, they have been classified in an appropriate manner as non-current assets held for sale (account 311).

The company has completed cadastral situation for the entire area of the premises owned by Orşova headquarters. The company has completed the land register for the whole situation in the area of property at its headquarters in Orşova.

Revaluation of tangible non-current assets

On 31 December 2004, the value of tangible non –current assets is presented at historical cost, indexed in accordance with government decisions ("GD"), which were applied by that date or at historical cost.

At 31 December 2005 the Company proceeded to revise the value of tangible assets by using the opinion of specialists, employed by the Company. At 31 December 2006, the Company proceeded to review the value of buildings and special constructions using the opinion of specialists, employed in the Company. On 31 December 2007, the Company has not proceeded to review the value of assets at the Orşova headquarters, instead, Agigea Branch conducted a revaluation of fixed assets of structures and ships group, before the merger, under the old name: SC Servicii Construcţii Maritime S.A. Agigea.

During 2007, 2008 and 2009 there were entries recorded in the technological equipment category and other intangible category which leads to a presentation in the financial statements, of the assets of these groups, both at historical cost indexed in accordance with government decisions (" GD "), and historical cost.

At 31 December 2009, the Company proceeded to the revaluation of buildings and special constructions, both at the headquarters in the town of Orşova and at Agigea branch, using the opinion of independent external evaluators. The reflection method of the revaluation in the company's bookings was to eliminate the depreciation from the book value of assets. The amount of the revaluation surplus was credited to revaluation reserve balance for those targets whose fair

IAS 16 **14. Tangible non-current asset (continued)**

value was higher than the net book value, and for the other purposes for which the fair value has been less than the book value a reduction of the existing revaluation surplus was reflected affecting operating expenses for the purposes for which revaluation reserves were not previously recognized or the recognized revaluation reserve was insufficient to cover the decrease.

At 31 December 2010 and 2011, the company did not revalue non-current assets.

At 31 December 2012, the company revalued buildings and means of naval transport, both at headquarters in the town of Orşova and Agigea branch using the opinion of an independent external value. The Company has used the net value model. The amount of the revaluation surplus was credited to revaluation reserves for those assets which fair value was higher than the net book value, and for the other assets which fair value has been lower than the book value a reduction of the existing revaluation surplus, was reflected affecting operating expenses for the purposes for which revaluation reserves were not previously recognized or the recognized revaluation reserve was insufficient to cover the decrease. For the fixed assets that are under conservation at Agigea branch, an impairment of 6,739 RON was recognized.

At 31 December 2013, the company proceeded to the revaluation of means of naval transport, both at headquarters in the town of Orşova and Agigea branch using the opinion of some independent external evaluators. The reflection method of the revaluation in the company's bookings was to eliminate the depreciation from the book value of assets. The amount of the revaluation surplus was credited to revaluation reserve balance for those targets whose fair value was higher than the net book value, and for the other purposes for which the fair value has been less than the book value a reduction of the existing revaluation surplus was reflected affecting operating expenses for the purposes for which revaluation reserves were not previously recognized or the recognized revaluation reserve was insufficient to cover the decrease.

For the fixed assets that are under conservation at Agigea branch, an impairment of 155,474 RON was recognized, at the end of 2013; at 31.12.2012 the impairment was 6,739 RON.

At 31 December 2014, the company proceeded to the revaluation of means of naval transport using the opinion of some independent external evaluators, applying the same rules and methods regarding the registration of the resulting differences.

For the fixed assets that are under conservation at Agigea branch, an impairment of 195,218 RON was recognized, at the end of 2014; at 31.12.2013 the impairment was 155,474 RON.

At 31 December 2015, the company proceeded to the revaluation of means of naval transport, both at headquarters in the town of Orşova and Agigea branch using the opinion of some independent external evaluators. The reflection method of the revaluation in the company's bookings was to eliminate the depreciation from the book value of assets. The amount of the revaluation surplus

IAS 16 **14. Tangible non-current asset (continued)**

was credited to revaluation reserve balance for those targets whose fair value was higher than the net book value, and for the other purposes for which the fair value has been less than the book value a reduction of the existing revaluation surplus was reflected affecting operating expenses for the purposes for which revaluation reserves were not previously recognized or the recognized revaluation reserve was insufficient to cover the decrease.

For constructions and ships, an increase amounted at 2,181,569 RON was recorded. However analyzed individually, there are positions that present decreases, their total value is amounted at 3,591,056 RON, out of which 3,416,821 RON were incurred from revaluation surplus previously recorded for these items and 174,235 RON were supported on costs.

Please note that further information regarding the revaluation can be found in the Administrators' report prepared and presented separately in the general meeting of shareholders.

Valuation techniques used by the evaluator for fixed assets under IFRS 13.91, were as follows:

- The cost approach for naval means of transport and for fixed assets in conservation
- The income approach for leased buildings (investment properties).

On December 31, 2016, the company proceeded to the revaluation of fixed assets amounted to the nature of shipping assets, using the same external independent evaluator's opinion and based on the same rules on recording differences in results. In the ordinary general meeting of shareholders, the results of this reassessment will be presented as visually distinct agenda. For fixed assets placed in conservation at Agigea branch was recognized an impairment at the end of the year 2016 total of 287,458.76 RON (to 31.12.2015 this impairment was of 252,756,17 RON).

On December 31, 2017, the company proceeded to the revaluation of fixed assets amounted to the nature of shipping assets, using the same external independent evaluator's opinion and based on the same rules on recording differences in results. In the ordinary general meeting of shareholders, the results of this reassessment will be presented as visually distinct agenda.

For fixed assets placed in conservation at Agigea branch was recognized an impairment at the end of the year 2017 total of 304,490.18 RON (to 31.12.2016 this impairment was of 287,458.76 RON)

On December 31, 2018, the company proceeded to re-evaluate the property, buildings and ships, both at the headquarters of Orşova and at Agigea branch using the opinion of independent external evaluators. The method of reflecting revaluation in the Company's accounts was that of eliminating depreciation from the carrying amount of assets. With the value of the revaluation surplus, the balance of revaluation reserves was credited for those items whose fair value was higher than net book value, and for the other objectives for which the fair value was less than the net book value reflected the decrease of the existing revaluation surplus and / or the impairment of operating expenses in the case of previously unrecognized

IAS 16 **14. Tangible Non-current Assets (continued)**

revaluation reserves or recognized revaluation reserves was insufficient to cover the decrease. In both the construction group and the ship, by total group, there are increases, totaling 5,330,995 RON. However, individually analyzed were positions where there were decreases, their total value being 1,054,765 RON, out of which: 1,047,790 RON were borne from the revaluation surplus previously recorded in these positions and the amount of 6,975 was incurred on costs.

At December 31, 2019, the Company proceeded to reevaluation the tangible assets of the nature of the means of ship transport, using the opinion of the same independent external evaluator and based on the same rules regarding the recording of the resulting differences. In the ordinary general meeting of the shareholders, the results of this reassessment will be presented as a separate item on the agenda.

At December 31, 2020, the Company proceeded to reevaluation the tangible assets of the nature of the means of ship transport, using the opinion of the same independent external evaluator and based on the same rules regarding the recording of the resulting differences. At the ordinary general meeting of shareholders, the results of this revaluation will be presented as a separate item on the agenda.

At 31 December 2021, the Company proceeded to re-evaluate property, plant and equipment of the nature of naval transport, using the opinion of the same independent external valuer and based on the same rules on the registration of the resulting differences. For the fixed assets in conservation at the Agigea branch, a total depreciation at the end of 2021 of RON 435,721.16 was recognized (as at 31.12.2020 this depreciation was of 406,522.02 lei).

In order to carry out these operations, the company turned to the specialized services of the evaluator DARIAN DRS S.A., headquarters in Timisoara.

Valuation techniques used by the evaluator for fixed assets under IFRS 13.91, were as follows:

- The cost approach for naval means of transport and for fixed assets in conservation
- The income approach for leased buildings (investment properties).

According to IFRS 13, valuation at fair value of buildings and means of naval shipping supposed taking into consideration the characteristics of the assets, which users of financial statements would consider in determining the price of the asset at the balance sheet date. Fair value determination was carried out by an independent external evaluator and shall be treated as level 2 under IFRS 13 for the data taken into account in determining the fair values as at 31 December 2019, the date of financial reporting. At the company level, there has not been any change of the level presented by IFRS 13 for the data taken into account in determining the fair values. Also, the maximum amount for assets valued at fair value does not differ from the current amount of use.

IAS 16 **14. Tangible Non-current Assets (continued)**

Impairment losses and subsequent reversals

At the end of 2021, for the fixed assets in conservation at the Agigea branch, the depreciation test was also performed, being recognized a total depreciation of 435,721.16 lei, depreciation that is maintained on June 30, 2022.

Pledged or mortgaged non-tangible asset

To guarantee the multi-option and multi-currency global limit, in value of 1,500,000 (at the same level as on 30.06.2021), made available by BRD-GSG SA, the Company established the following::

- First rank mortgage on the following properties: Repair hall, New Hall, Thermal power station, Compressors Station and PSI Shed, Operating Group, Cafeteria, Merged building, all including land, toate împreună cu terenul aferent, properties assessed according to the Guarantee Monitoring Report at EUR 1,512,800 market value, registered in the Land Book Register under the numbers 1133, 1146, 1121, 1145, 1134, 1135 and 1132;
- Security interest with dispossession on a deposit in value of 401.201 EUR.
- Assignment of receivables as collateral on receipts in a total value of 16.391.630 EUR, resulting from the commercial contracts concluded by the Company with third parties, not cashed up at 30.06.2022.

Non-tangible asset under construction

On 30.06.2022 the company has unfinished investment objectives in the amount of 3,824,331 lei (3,937,035 lei at 30.06.2021). A significant share within them is represented by the modernization works of the launching path from the Agigea branch, including the replacement of the strollers up. These modernization works, started about 5 years ago, are expected to be completed by the end of this year.

IAS 39

16. Other investments, including derivative financial instruments

The securities are recognized in the financial statements in accordance with IAS 27 (revised in 2010), IAS 36 (revised in 2009), IAS 39 (revised in 2009) and IFRS 7 (issued in 2008). From the corroboration of the provisions of the 4 standards, the company adopted the following policy for the recognition and evaluation of the shares and the securities:

- investments in subsidiaries, jointly controlled entities and associated entities are recognized at cost value;

- short-term investments held for sale not quoted on the stock exchange are recorded at cost, for the impairments being made adjustments (the treatment for the depreciation of these securities is established by IAS 39 paragraph 63);

- Short-term investments held for sale listed on the stock exchange are recorded at fair value (the value of the last trading day of the year), any gains or losses to be recognized in the capital situation. If there is objective evidence of impairment (as presented in paragraph 59 of IAS 39), as well as in the case of foreign exchange losses and gains, the loss of value will be recognized in the profit and loss account.

IAS 39 **16. Other investments, including derivative financial instruments (continued)**

In 1993, S.C. Servicii Construcţii Maritime S.A. ("SCM"), a company acquired by Şantierul Naval Orşova S.A. during the financial year ended 31 December 2008, made with the Anonymous Society "Domik Kritis", based in Crete, a joint venture named "Kritom Shipping Company", based in the city Iraclio, Crete. The share capital owned by SCM at Kritom Shipping Company was 49%:

- the total share capital of this company was 1,230,600 euro, consisting of a total number of 4,200 shares of 293 euro / share,
- SCM, at that time held 2,058 shares, respectively 602,994 euros (49%), and Domiki Kritis held 2,142 shares worth 627,606 euros (51%)

According to the latest information received from the Greek authorities, the Greek partner proceeded, without our consent, by virtue of the provisions of art.3.4 of the Convention establishing the company, to double the share capital of Kritom, reaching 2,461,200 euros (8,400 shares), from which:

- The joint-stock company "Domiki Kritis", which has since become Aristodimos E. Lidakis SA, holds 1,857,620 euros, the equivalent of 6,340 shares, representing 75.48%, and
- Santierul Naval Orsova holds 2,060 shares worth 603,580 euros, respectively 24.52% of the share capital.

The founding convention of the Kritom Shipping Company provides that the duration of the company is for the period 1993-2012. However, in 2012, the Greek shareholder, without consulting the Company, and using the dominant position in the General Meeting decided to extend the duration of the company by 25 years, until 2037.

At the moment, based on the information we have, the company is active but due to result of the pandemic and the lockdown situation in Greece , it does not generate revenue.

For more information about the current situation of Kritom and to clarify all aspects of administration, Şantierul Naval Orşova contacted a law firm that will represent us in court and support our interests as a shareholder.

In accordance with IFRS 13, fair value evaluation of short term investments assumes taking into consideration the characteristics that market participants would consider in determining the price of the asset at the measurement date. Fair value determination was made according to the available information on the interbank market and is assimilated to the first level required by IFRS 13 for data taken into account in determining the fair values at December 31, the reporting date.

On 30 June, 2022, the Company had fully set up impairments for these securities, amounted to 684,495 RON, so the net value on 30 June 2022 was 0 RON (the same situation was registered at 31 June, 2021).

The factors that contributed to these depreciations are the distrust and lack of transparency shown by the Greek partner, which manages the company, as we have shown.

This financial asset belongs to the category of financial assets measured at amortised cost in accordance with IFRS 7.8.

IFRS 16 **17. Right-of-use assets**

As of 2019, IFRS 16 Leases has become applicable. Since the company has certain lease agreements, as a lessee, with a term of 12 months or less and small-value leases, apply for these contracts the exception for the recognition of short-term leases and small-value leases. We specify that the company, at the headquarters of the Agigea branch, holds the right to use the land owned by the National Company for the Administration of Maritime Ports Constanta.

The rent contract concluded in this regard with CNAPMC (September 2019) is valid until 2038 but contains clauses regarding the renegotiation of the tariff every 5 years and a value of the rent indexable annually.

The initial analysis of the clauses of this contract led the Company to apply the exception allowed by IFRS, respectively to consider that the conditions to recognize this contract annually as a new lease are met.

In 2021, after the review of the contract, the company concluded that the annual tariff change did not represent a material change to the contract, and decided to re-evaluate the requirements of IFRS 16. He therefore classified the contract with CNAPMC under IFRS 16 and posted a right-of-use asset and a matching lease liability.

The following are the carrying amounts of the rights of use of the recognised asset and the movements of the period:

	Total land-use rights	Total rights of use of assets

	Balance at 30 June	<u>593.773</u>	<u>508.019</u>

Starting with September 2019, the Agigea branch proceeded to rent a building located in Constanta, called "Headquarters", to the companies City Protect and Protect Instal. The rental period, according to the contracts in force, ends on 31.12.2023.

The company values investment property at fair value, with changes in fair value recognised in the statement of profit or loss and other comprehensive income.

On 31.12.2021 the real estate investment was revalued by an independent external appraiser. The valuation method used was the income approach.

During the analyzed period, the Company has carried out a series of modernization works for this real estate investment.

19. Stock

<i>IAS 1.78(c), 2.36(b)</i>	Waste products	798	-
	Impairment adjustments	(589.946)	(783.275)
	Stocks at net value	<u>50.132.232</u>	<u>18.846.300</u>

IAS 1.104,
2.36(e)(f)

For the stocks of raw materials and materials with an age of more than 2 years (for the sheet metal stocks with an age of more than 3 years), existing in the balance at the end of 2021, without movement, the company proceeded to adjust the accounting value, constituting a total depreciation of 589,946 lei, which is maintained at the same value on 30.06.2022.

Compared to the corresponding period of last year, there is an increase in stocks (by 166.01%), mainly on account of stocks of raw materials and materials, in direct correlation with the contracted production, but we also notice a significant increase in the production under construction.

20. Fixed assets held for sale

	<u>31.03.2022</u>	<u>31.03.2021</u>	
	lei	Lei	
<i>IAS 1.104,2.36(e,g)</i>	Balance at the beginning of the period	-	18.637
<i>IAS 1.104, 2.36(e,g)</i>	Exits by sale	-	-
	Balance at the end of the period	0	18.637

In 2017, the company, following the decision of the directors, reclassified a series of assets into fixed assets held for sale; they were measured at the reclassification date at the lower of the net carrying amount and fair value less costs generated by the sale.

During 2021, the last assets reclassified in this category were sold, respectively the two lands owned by the company in the Gratca area, Orsova, so that on 30.06.2022 the company no longer owns such assets.

Şantierul Naval Orşova S.A.

21. Trade and similar receivables, other receivables and advances

		30.06.2022	30.06.2021
<i>IAS 1.78 (b)</i>	Trade receivables in relation to related parties	-	-
	Loans to executives	-	-
<i>IAS 1.78 (b)</i>	Trade receivables	15.341.281	12.782.473
	Adjustments for the impairment of trade receivables	(166.620)	(166.620)
<i>IFRS 7.8(c)</i>	Net commercial loans and receivables	15.174.661	12.615.853
	Claims - total	4.289.865	1.789.802
	Different debtors	346.872	310.821
	Suppliers - debtors	28.638	7.090
	VAT to be recovered and not exigible	3.738.467	539.422
	Adjustment for other receivables	(340.174)	(304.633)
	Expenses registered in advance	450.387	265.543
	Other receivables	65.675	971.559
	Total	19.464.526	14.405.655

As for the commercial receivables, on 30.06.2022 they are at a higher level than those recorded at the end of the corresponding period of the previous year, but are related to the current deliveries of goods and services, with maturities in the next period.

Regarding the amount representing the VAT to be recovered, much higher than the one recorded in the corresponding period of 2021, we specify that it was generated by the large acquisitions of stocks made during the analyzed period.

During the period 01-30.06.2022, insignificant movements of the Company's depreciation accounts related to the adjustments of the commercial receivables were recorded

The claims considered in this note do not include claims presented in the category of non-current assets

22. Trade payables and other liabilities

	30.06.2022	30.06.2021	Adjustment 2021+-
Trade payables – short term	7.914.134	1.612.039	530.514
Social security and other taxes and fees	2.996.842	1.922.858	
Suppliers – unsecured invoices	1.356.336	420	
Clients- creditors	17.281.523	3.889.609	
Other debts	1.690.529	1.108.711	
Commercial debts – long term	766.238	-	1.233.137

Şantierul Naval Orşova S.A.
Separate financial statements in accordance with IFRS at 30.06.2022

Reference *NOTES TO INDIVIDUAL FINANCIAL SITUATIONS IN ACCORDANCE WITH IFRS*

22. Trade payables and other liabilities (continued)

Short-term commercial debts refer to payment obligations to suppliers, increasing compared to the same period of 2021 due to the large volume of acquisitions, but without exceeding the payment maturities, and advances received from customers, also higher than the corresponding period of the previous year. We also notice an increase in the obligations regarding social insurance and other taxes and fees due to the state budget, their balance on 30.06.2022 representing current debts whose payment, by compensation or payment was made after June 30, 2022.

23. Loans Leasing obligations

Finance leases

As of June 30, 2022, the Company has no financial leasing contracts.

Operating leases

The total of the commitments included in the leasing contract concluded with the National Company for the Administration of Maritime Ports constanta as of June 30, 2022, recognized in accordance with IFRS 16, is 1,309,256 lei. When updating the lease payments for 2022, since the company has no other contracted loans, it used the BNR's monetary policy interest rate from the end of 2021, of 2%.

The maturity of the leasing liabilities is as follows:

	2022	2021
Initial year	-	-
Year 1	-	-
Year 2	-	525.239
Year 3	568.917	568.917
Year 4	580.401	580.401
Year 5	442.976	442.976
Total	1.592.294	2.117.533
Debt balance June 30	1.309.256	1.763.651
Long-term	738.294	1.233.137
Short-term	570.962	530.514

24. Cash and cash equivalents

	30.06.2022	30.06.2021
Bank accounts in lei	2.195.807	1.577.298
Bank accounts in foreign currency	7.714.163	21.569.186
Petty cash in lei	8.005	13.245
Other values	6.388	4.380
Total	<u>9.924.363</u>	<u>23.164.109</u>

The total amounts in cash and cash equivalents decreased compared to the previous period (by 57.16%).
A main factor of influence in this decrease is represented by the large acquisitions of stocks but also the receivables not collected until the end of the reporting period.

25. Capital and reserves

Capital social

IFRS 7.7
IAS
1.79(a)(i),(iii)

The shareholders' structure as at 30 June 2022 has not undergone changes compared to the one existing on the reference date of 01.04.2022, the date chosen for the OGMS of April 15, 2022, respectively:

	Number Of shares	Amount <u>(lei)</u>
SIF 3 Transilvania	5.711.432	14.278.580
SIF 5 Oltenia	3.200.337	8.000.843
SIF 4 Muntenia	1.504.600	3.761.500
Other corporate shareholders/individual shareholders	1.006.550	2.516.375
	<u>11.422.919</u>	<u>28.557.298</u>

The subscribed and paid-up share capital is 28,557,298 lei, divided into a number of 11,422,919 registered and dematerialized shares, each worth 2.50 lei.

The shares of the company are nominative, dematerialized, ordinary and indivisible.

The identification data of each shareholder, the contribution of each to the share capital, the number of shares owned and the share of the shareholder's participation in the total share capital are mentioned in the register of shareholders kept by the register company contractually designated for this purpose.

Each share subscribed and paid up by the shareholders according to the law, confers on them the right to a vote in the General Meeting of Shareholders, the right to elect or be elected to the management bodies, the right to participate in the distribution of profit or any rights derived from the capacity of shareholder.

Holding the action implies the rightful adherence to the statute and subsequent amendments.

In the period 01.01-30.06.2022 there were no changes in the share capital.

Administrative staff	44	45
Direct productive staff	239	248
Indirect productive staff	62	66
	<u>345</u>	<u>359</u>

27. Other information, implications of the COVID-19 pandemic on the half-yearly report

In the current context generated by the COVID 19 pandemic, of the armed conflict taking place on the territory of Ukraine and of the restrictions imposed at international level on the Russian Federation based on the information at its disposal, the company considers that there are no significant uncertainties, according to paragraph 25 of IAS 1, for the continuation of the activity and there are no indications that would lead to a depreciation of the assets held, in accordance with IAS 36. However, we are faced with uncertainties in the economic and financial plan that can determine unpredictable developments regarding the level of economic and financial indicators budgeted by the Society.

The company has sufficient financial resources of its own to ensure financial stability, there is no liquidity risk or negative influences on cash flows.

The company's management has as permanent objectives the analysis of the future impact of the factors presented above on the financial performance and the taking of appropriate measures to reduce the related risks.

The ifrs compliant individual financial statements prepared for the period 01.01-30.06.2022 were approved by the Board of Directors on August 8, 2022 and were signed by:

Administrator
Ec.Radu Claudiu Rosca

Issued
Ec. Marilena Visescu

STATEMENT
